*President*

TO  
PROF. KOSTA BOSHNAKOV  
CHAIRMAN OF THE SOCIETY OF AUTOMATICS  
AND INFORMATICS "JOHN ATANASOFF"

THE ORGANIZERS AND PARTICIPANTS IN THE  
INTERNATIONAL CONFERENCE  
"AUTOMATICS AND INFORMATICS 2025"

**Dear Professor Boshnakov,**  
**Dear members of SAI "John Atanasoff",**  
**Dear organizers and participants,**

It is my pleasure to congratulate you on the opening of the fifty-eighth International Conference "Automatics and Informatics 2025"!

Another edition of this authoritative academic forum, presenting over 200 papers by scientists from 24 countries, continues the tradition of the John Atanasoff Days to exchange knowledge and build partnerships that bring added value to science and practice.

Today, current fundamental and applied research in informatics, communications, automation, robotics and artificial intelligence is at the heart of the economic and social development of humanity. In these strategic areas, Bulgaria has established scientific schools that have proven their potential and are widely recognized at the international level. The achieved results are a testament to the high level of research work carried out by our scientists.

I thank the members of the SAI „John Atanasoff“ for their perseverance and dedication in the development of Bulgarian science. At a time when Europe aims to implement ambitious projects in the field of computer technologies, our country is building its competitiveness. I firmly share your conviction in the great potential of Bulgaria to rank among the countries actively developing innovations and seeking new ways for their application.

I wish you successful and constructive discussions during the International Scientific Conference "Automatics and Informatics 2025"!

October 9, 2025.

Rumer Radev

PRESIDENT OF THE REPUBLIC OF BULGARIA
